VARC Assets Reports

Harvey, WB5MCT, reported on latest updates with VARC repeaters. Harvey reported that all VARC repeaters are working well as we approach Water Safari. Harvey believes the 145.130 repeater has an intermittent problem with the transmitter tone encoder. The new antenna for the 145.130 repeater at Detar North is in hand and awaiting installation.

The programming cable for the BridgeCom DMR repeater has been received. When Harvey has time we will remove the repeater from Detar Navarro so that Harvey can reprogram the DMR repeater to the already coordinated VARC DMR frequency.

Jim, AE7JS, reported on the latest updates with the VARC trailer. Jim reports that the solar panels on the roof need to be reconnected and one VHF radio needs to be moved.
